Dr. Bharath Sankaran
Scaled Robotics
CTO
Barcelona, Spain

Dear Dr. Sankaran,

I am writing to apply for the position of Robotics intern.

I am a Master's student in Automotive Engineering at RWTH Aachen, Germany. I graduated as a Mechanical Engineer with a minor in Applied Mathematics from Indian Institute of Technology (IIT) Kanpur, India.

I have worked for international Robotics and Automotive Research labs and companies, in Germany, India and Italy. I have worked on platforms ranging from Mobile warehouse and Humanoid robots to Off-road and Aerial vehicles. I have mentioned their details on the attached resume.

I love working in international setup. I believe, working with highly talented and enthusiastic people at Scaled Robotics, would help me grow both professionally and technically.

I would be available to work from November, 2019 or Mid March, 2020.

Thank you for taking the time to consider my application. I would be glad to provide any further information, and be available for an interview.

I look forward to hearing from you.

Sincere regards,

Vibhor Aggarwal
